Hangzhou WRAPMASTER Decorative Film Technology Co., Ltd

Your Trusted Partner for High-Performance, Custom-Ready Car Wrap Solutions in North America

For over 15 years, WRAPMASTER has been empowering automotive aftermarket businesses across 150+ countries with premium PVC color change films and PPF paint protection films—engineered for performance, backed by partnership.

Headquartered in China with a 50,000m² smart factory and a team of 80+ R&D and production experts, we specialize in serving North American entrepreneurs who demand:

- >Consistent quality that survives harsh winters (Canada) and scorching summers (Mexico/USA Southwest)
- >Fast, reliable delivery – 98.7% on-time shipment to your warehouse
- >True customization – from private-label packaging to exclusive film formulations
- > Real support – technical guidance, marketing assets, and responsive after-sales service

1、 We don't just sell film.

We help your brand stand out, your installers succeed, and your customers come back. Trusted by 500+ dealers since 2010, WRAPMASTER is committed to being more than a supplier—we're your growth ally in the competitive Europe and American car wrap market.

TPU Paint Protection Film

WM26 Series

TPU Paint Protection Film

When you have a new car, you want to make sure that any damage is kept away from the paint—the TPU self-healing paint protection film helps you realize this. Minor damage will not be visible. Paint protection film made of TPU that self-heals may be mended automatically. Scratches go away, and chips form in the gaps. Improve the paint surface's brightness by 40%, precisely cover scratches, no-yellowing and isolate damage from UV rays and acid rain, effectively keep the paint surface from aging, and come with a lengthy guarantee. TPU ensures that your product's finish is clean and appealing for years to come.

They allow you to flaunt your car's original paint job's inherent attractiveness. There are no foggy hues or tints in the film, allowing the natural color to come through. Your car can also be washed and waxed as usual.

Model	TPUT01,TPUH02,TPUP03,TPUM04
Brand	Wrapmaster
Size:	1.52x15M/5x49FT
Color	TPU transparent gloss/matte
Adhesives	Henkle solvent-based, repositionable, removable,permanent
Film Thickness	6.5MIL/7.5MIL
Glue thickness	1.2mil
Repair coating	10µm Japanese Cashew coating
Release paper	Transparent PET
Installation method	wet
Gram Weight of Release Paper	160gsm embossing paper
Expected durability	5-10years
Characteristic	Heat Self-Healing,Pressure-sensitive Glue,Super Stretchable,Recoverable,Super toughness & Anti-scratched,Resistance high and low temperature,Anti-UV resistant, No-yellowing,Swirl Resistance,Anti-fouling,Anti-corrosion
Applications	car, truck or SUV. Heck,Boat,motorcycle,architectural decoration
Storing period	3 years if stored in +10°C to +25°C, relative humidity 50%, in original package, away from direct sunlight, clean and dry place
Temperature resistance	From -50°C to +130°C

PET Liner Cast Car Wrap

WM25 Series

PET Liner Cast Car Wrap

If you are looking for a high performance car wrap, consider purchasing premium vinyl wrap with PET liner. This car wrap uses high quality polymeric vinyl release liner, technological innovation and a revolutionary PET double layer lamination method (super exhaust effect) to give your car a strong and shiny finish. To create a stunning mirror finish, make the car surface smooth and free of orange peel. Easy and quick installation thanks to the super exhaust effect release. The PET material is elastic and does not change color when stretched. Every edge can be wrapped effortlessly. When removing Henkel's solvent-based acrylic adhesive, no glue is left behind, effectively protecting your car paint and keeping your car more valuable.

Model	PET Liner Super Gloss metallic and crystal
Face Only Thickness	3.7-4.1mil
Adhesive Thickness	1.6mil
Type of film	Premium Cast Vinyl Film
Adhesives	Henkel solvent-based, repositionable, removable, permanent
Release liner	High Shrinkage PET Liner, 3mil
Heat Resistance	-61°F to 225°F (-60°C to 107°C)
Film Stretch Rate	20+pascal
Dimensional stability	shrinkage less than 2%
Glue Weight	30g/m2±2gm2
Chemical Resistance	water, dirt, grease, salt, weak acids oil resist
Expected durability	3-5 years
Applications	Full Vehicle Wraps & Graphics, Architectural Signage, Buses, Cars, Trucks & Vans, Mirrors, Bumpers, Hoods, Roofs, Door handles, Vehicle lettering, Interior trim, Watercraft, Decals & Stripes, Accents & Trim, Dash panels, Electronics, Skins & More.
Available Colors	60 colors as picture
Storing period	2 years if stored in +15°C to +25°C, relative humidity 50%, in original package, away from direct sunlight, clean and dry place.
Temperature resistance	from -50°C to +50°C

WM25 Series

Wrapmaster Colorflow Shifting Vinyl Wrap is a Premium Wrapping Cast Film, it is a premium, high-gloss vinyl and satin with a color shift effect. Depending on your viewing angle, you'll see a vibrant, gem-like display of different color cycling through to lighter hues and back again. And, since the vehicle wraps is a full mil thicker than formed Flip films, it's easier to work with and stretch. There are fresh spring green (green to gold) and auroral color (purple shift to blue),

Colorflow Shifting Vinyl Wrap auroral color is a high-gloss, shade-shifting effect that slides from cyan to purple and back again then this film is for you. Made from cast, dual layer film, this Supreme Wrapping film comes to you on a double-rhombus liner that impresses air-release channels into the adhesives.

Model	MD SD series 1025-1028

Stretchable Chrome Car Wrap

WM25 Series

As you know, the classic chrome car wrap is difficult to install for its thickness and stretchability. But now you don't worry about this problem. WRAPMASTER High Stretchability Chrome Car Wrap is new and improved so much. When you want an ultra-realistic Chrome Wrap that you can stretch at over 130% without failure and a true, smooth mirror finish. And, since it features air-channel technology and removable adhesives for easy snap up and repositionability, you get a truly hassle-free wrapping experience.

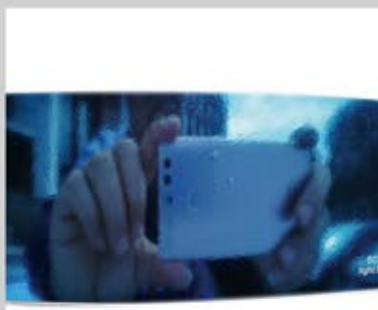

Model	SCH01--SCH08
Name	High Stretchable Chrome Film
Thickness	3mil
Heat Resistance	-61°F to 225°F (-60°C to 107°C)
Stretch Rate	33+pascal
Glue Material	solvent-based, repositionable, removable, permanent
Gram Weight of Release Paper	160gsm embossing paper
